

"I feel so lucky to be living at the Regent. My medical care is available on site. With Bluestone Physician Services, the doctor comes to me. Any radiology or blood work is done right here at the Regent. The doctor is taking care of my physical and emotional needs and he is available via phone or internet. That availability gives me the assurance that my medical needs will be taken care of."

Margaret Rence

Bluestone is committed to working closely with our staff to customize care plans and carefully monitor the health care needs of our residents. All patients are treated with respect and recognition of individuality.

"Old fashioned Service.....Latest Medical Technology"

Available to residents open to in-house home health care services.
